SECURITY WISDOM AHEAD OF THE CURVE

## **Get your CSOinformer now! Inaugural edition September 10, 2002**

CSOinformer is edited by Jim Reavis, founder of SecurityPortal and longtime industry analyst. This monthly newsletter is targeted at people who must take a strategic, multi-year view of the information security industry, and we promise insights you will not find anywhere else.

### **Headline**

The headline of the past month is the FTC's settlement with Microsoft over Passport...

### **Homeland, Regulations & Rules**

On September 18<sup>th</sup> Richard Clarke, the President's cyberczar for security will be at Stanford University to present the administration's strategy document on providing a more secure future. I'll be there to take it all in and will report back to you next month. I think we can expect a few consistent themes...

### **Under the Radar**

MSSPs had in investment "boom" 2 years ago, followed by a sales "bust" last year. It has been quietly creeping back this year and is set for a break out next year. Why? ...

### **Investor News**

... a bold stroke that bolsters Symantec's offerings for enterprise customers, and is a shot across the bow of ... You would also have to think that a few more high quality private companies are being courted to go the M&A route, such as...

### **Trend to Ponder**

Real time vulnerability assessment is a technology that holds great promise in building computer networks with an insecurity immunity system, yet this is ignored by all but ...

### **Subscription**
